The defining features of next-gen surfaces

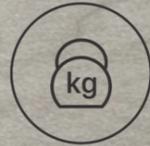

Hygienic, practical and easy to clean

Unaffected by stains and chemicals

Extremely hygienic, because it does not absorb dust, dirt and bacteria.

Compact material, highly shock-resistant and able to withstand heavy loads.

Impermeable, frost proof and weather-resistant, making it ideal for use outdoors.

Ideal for radiant flooring, conducts heat without insulating and heats quickly.

Resistant to UV rays, guaranteeing lasting colour stability

Resistant to scratches and abrasions

Crafted with precision, these surfaces are perfectly suited for modern and classic spaces, offering various application areas.
